The Awards, which began in year 2002, was organised with the aim of honouring and recognising the efforts of Responsible Care signatory companies that have made the most progress in implementing the Responsible Care's Six Codes of Management Practices. Responsible Care is the chemical industry's unique global initiative that drives continuous improvement of all aspects of safety, health and environmental performance, together with an open and transparent communication with stakeholders. To date, 125 chemical companies in Malaysia are signatories to the Responsible Care initiative.

This Award aims to recognize good performers and to identify best practices among chemical transporters. It complements the objectives of Responsible Care and is opened to CICM members and Responsible Care signatories who manage their own transport operations or their main transport contractors.
